

## **DESIGN REQUIREMENTS      Manual**

1. Sashes must be either top hung or on frictionless stays.
2. Window gearing components will be powdercoated to match window joinery; standard colours only allowed for (Black, Artic White or Silver Pearl). Any special colours may incur an extra value.
3. Gearboxes and vertical drive mechanisms must be mounted on solid walling. Hessian or pin-board type products not acceptable.
4. Restrictor stays must not be fitted to sashes where window gearing is to be installed.

**Operable Window Technologies**
